So far as the agents find it the market has been variable for some days. There has been little demand for heavy investment properties, but the demand for small rental properties continues active, with many sales.

Agents of lots report a continuance of a demand for building lots, largely for rental purposes. The building permit record shows a steady progress in building small rental property, and agents report that new buildings are meeting with ready acceptance by those seeking cottages and apartments. The effect is very striking and no expense has been spared in securing the highest class of furnishings and decorations. A room for ladies to transact their business is another new feature.

## JOHNSON ASSAILS SHEETS.

## Cleveland's Mayor Says the Attorney

General Is a Cheap Politician. CLEVELAND, June 28 .- Mayor Tom L. Johnson to-day gave out a signed statement relative to the decision of the Ohio

Mr. Johnson's letter says in part: "The ouster proceedings had its origin informed, of the state administration.

"Without the approval of Attorney General Sheets no case could have been brought in the Supreme Court, and after this suit was begun he refused to comply with the request of Cincinnati attorneys to test the Cincinnati law. It was an attempt to play politics, but the result will show that it was poor politics. The entire responsibility rests with Attorney General Sheets and his advisers.

"The important question is, however, what shall be done? I believe the Supreme Court should be praised rather than blamed for its courageous decision. It was the timidity of their predecessors that made possible so much special legislation." In conclusion Mr. Johnson declared that it has been demonstrated that the federal plan of municipal government is the best that can be devised. He expresses the ernment of all Ohio cities at the special session of the Legislature.

PACIFIER OF SAMAR ISLAND VIO-LATED RULES OF WAR.

Unconfirmed Report that He Will Be Reprimanded by the President-Major Gardener's Case.

WASHINGTON, June 28 .- It is announced at the War Department that the case of General J. H. Smith will not be acted on many improvements, as the most valuable | the earliest. Judge Advocate Genral Davis has completed his review of the proceedings of the court-martial, and the pa-Root, who is so busy with other matters that he has not yet had time to give the case the attention it deserves. It has been generally understood that General Smith was acquitted by the court, but it transpires to-day that such was not the case. The court, it is alleged, had found General Smith guilty of violating the rules fidential until finally acted on by the President, it is impossible to obtain any official information in regard to it.

## MAJOR GARDENER'S CASE.

## Recorder of the Board of Inquiry Ob-

jects to Special Privileges. MANILA, June 28 .- At to-day's session of the board which is inquiring into the 5,500.00 charges of cruelty, etc., brought by Major Cornelius Gardener, of the Thirteenth In-1,600.00 | fantry, Governor of the Province of Tayabas, against American officers and soldiers, Major Gardener continued his testimony, the first part of which was presented yesterday. The recorder objected to extraneous evidence, and said the witness was not entitled to special privileges. Counsel for Major Gardener admitted that the point was well taken, but said he thought the grave question involved called for more | REAL ESTATEthan ordinary inquiry. The recorder replied that it was a matter of routine and that the record showed that Major Gardener had always been given every advantage. He had long felt, and he believed this feeling was that of the rest of the board, that, regardless of whatever they did, Major Gardener would accuse the board of unfairness. For this reason, the board had given the major every latitude. His privilege to 'throw mud' was certainly not granted to the officers and soldiers Major Gardener 1.00 was endeavoring to besmirch. The major had been represented at the meeting as the Governor of Tayabas by the chief supervisors, the fiscal's assistant, the attorney general and his first assistant. The recorder did not profess to be a lawyer. He thought, however, that such an array of talent was not likely to be imposed upon.

## A New Bureau and a New Study.

Philadelphia Press. "Criminal, pauper and defective classes" need study, and it is probable that something will be secured in this direction by the bill now before Congress whose origin and authorship will suggest this to those familiar with the subject for establishing in the Department of Justice a laboratory for the study of these classes. The work is to include not only laboratory investigations, but also "the collection of jurisprudential, sociological and pathological data, especially as found in institutions for the criminal, pauper and defective classes, and as may be observed in hospitals, schools No. and other institutions, also investigation of anarchistic criminals, mob influence and like phenomena."

This is a large contract, and the man in charge of the work ought to be selected after the nomination of a number of persons by a selected commission and their subsequent test by a competitive examination. But, as every one knows, what will really happen will be that the man who has taken most pains in passing the bill will be placed in charge. In the end, if this work is established by the initiative of an active and energetic man, whose work has its limitations, but still accomplishes something, it will, in time, pass into the hands of some one occupying a recognized position and selected by a better process than the competition for appropriations.

President Cleveland once said that if a man was set to watch the Washington monument, inside of ten years he would be \$5,500.00. Modern House of 9 rooms, Delaware st. a bureau on monuments, and in twenty he would be a department, publishing a report as big as Webster's dictionary on monuments in general, and asking for admission to the Cabinet, which is a parable having various truths.

## G. M. Lambertson.

Nebraska State Journal.

The citizens of Lincoln who heard by word of mouth yesterday of the sudden death, at Chicago, of Hon. G. M. Lambertson were inexpressibly shocked and grieved. As he had been seen in the city apparently in his usual health and spirits at the close of last week, it seemed unreasonable to believe that the news could have substantial foundation. Mr. Lambertson had long been identified with this community and filled a large place in its thought and life. He was a big man intellectually, as well as physically. He made a name for himself in the legal profession throughout the entire West and was widely known as a public man whose voice and talents were used to further the cause of clean politics and a good government. His Council, United Commercial Travelers, to- | death is a loss to the city of Lincoln and to
